Andrei Popescu

Date of birth: 23/02/2005 | **Phone:** (+40) 725544138 (Mobile) | **Email address:** andrei.popescu23205@gmail.com | **LinkedIn:** Andrei Popescu | **GitHub:** andrei5amabil | **Address:** str. Martir Remus Tasala, bloc 1, scara A, apt. 15, 300345, Timisoara, Romania (Home)

ABOUT MYSELF

I am a very passionate and dedicated individual when it comes to my work, but i otherwise would consider myself quite laid-back and easy going, also a good team player or even coordinator.

EDUCATION & TRAINING

01/09/2019 - 01/08/2023 - DROBETA TURNU SEVERIN, ROMANIA

HIGH SCHOOL DIPLOMA (BACCALALAUREATE), MATHEMATICS-INFORMATICS PROFILE- COLEGIUL NATIONAL "TRAIAN"

Informatics: Advanced algorithms, data structures, and programming in C++

Mathematics: Calculus, algebra, and logic.

Physics: Thermodynamics and mechanics.

Final Examination Grades:

- Mathematics: 9.3/10
- Informatics: 9.3/10

Level in EQF: 4

03/09/2023 - Current - TIMISOARA, ROMANIA

ENGINEER'S DEGREE IN COMPUTER SCIENCE AND INFORMATION TECHNOLOGY (IN PROGRESS)- POLYTECHNIC UNIVERSITY OF TIMISOARA

Field(s) of study: Software Engineering, Embedded Systems, Web Programming | **Level in EQF:** 6

LANGUAGE SKILLS

Mother tongue(s): **ROMANIAN**

	UNDERSTANDING		SPEAKING		WRITING
	Listening	Reading	Spoken production	Spoken interaction	
ENGLISH	C2	C2	C2	C2	C2
FRENCH	B1	A2	A2	B1	A1
GERMAN	B1	B1	A2	B1	A2

SKILLS

Python (computer programming) | Java | JAVASCRIPT / TYPESCRIPT | React.js | Node.js | HTML | Git | MySQL

| Linux systems programming | scripting(bash, python) | networking(routers, switches)

PROJECTS

02/03/2026 - 23/03/2026

Arcade-sh Arcade-sh is a website in React.js and Next.js which offers users and old-school arcade feeling with retro games and leaderboards, but also features discussion forums and a shop for avatar and profile customization.

09/03/2026 - 10/03/2026

Stega-Saurus through the stega-saurus projecty, i familiarised myself with the concept of steganography, a message encryption method where you manipulate a photo(.png, .jpeg etc.) in order to contain a secret message that is not visible to the human eye.
Links https://github.com/andrei5amabil/projects/tree/main/stega_saurus

15/10/2025 - 22/12/2025

Chess-C Together with 2 colleagues, we developed a chess game server, using strictly C, with the pthread and ncurses libraries. users can connect to the server and be matched up against their opponents, our hand-written chess engine is advanced enough to tell when a move is invalid and prevents the user from going through with it, the visuals are snappy and the server can handle multiple games at once. This project familiarised me with concepts such as multi-threadding, working with custom data structures and optimizing algorithms.

12/03/2026 - CURRENT

Testing of MQTT-SN drivers I am currently working on this project together with a colleague to test existing MQTT-SN drivers on different sensor networks and attempting to optimize response times and to minimize latency.

FTC ALUMNUS

13/10/2020 - 03/05/2022

Participation in FIRST Tech Challenge during High School

I was part of the FTC team "The Emperor", code 19073 - RO124, which taught me about autonomous programming, 3d modelling and printing and working with sensors and servomotors. During my time as a member of the team, i traveled to multiple cities with the team for demos and competiton stages.
